HAYTI BAPTIST CHURCH

LEGISLATURE DOINGS AT THE STATE CAPITOL

By MEANS RAY
Jefferson City, Mo., March 6.—Despite the fact that the house of representatives controlled by the Republicans has twenty-eight assistants and one doorkeeper much difficulty was found in getting persons on each of the six doors when an executive session was held to hear Dr. G. H. Robinson of the Sanitary Corps of the U. S. Army.

When the executive session was ordered Speaker O'Fallon asked that all doors be guarded and the lobbies and galleries be cleared. When this was done the speaker suggested that some of the "numerous" clerks might perform the duty and after considerable delay the entrances were properly guarded.

It is on the doorkeeper's force that a large number of the negroes employed by the house are taken care of at \$3.50 per day, in addition to those in the bill room.

A bill providing for compiling and publishing records of Missourians who served during the war with Germany, together with a history of the engagements in which they fought, has been engrossed.

A measure providing for the state board of health to regulate and control venereal diseases and provide public clinics for their treatment has been engrossed. The federal government is back of the bill and offers to provide \$47,000 to enforce it. The government's interest in the matter is occasioned by the large number of men who were unfit for military service because of such ailments.

Indications are that the Children's Code bills by Senator Kinney and Buford will be favorably acted upon. The senate and house committees have reported favorably on the following:

Relating to the abandonment of children.

Raising the age of consent.

Prohibiting the employment of women three weeks before and three weeks after childbirth.

Raising the age of majority for girls.

Prohibiting the marriage of feeble-minded, epileptic and insane persons.

Abolishing common law marriages.

Establishing the age of marriage

for girls at 15.

Requiring the consent of parents for issuance of marriage license to minors.

Providing institutional care for colored children.

Relating to commitments to industrial homes for girls.

Relating to commitments to industrial homes for negro girls.

Treatment of incorrigible minors under the juvenile court age.

State supervision of maternity hospitals.

Establishing a state home for dependent children.

Empowering the courts to commit dependent feeble-minded persons to the state institutions.

Providing increased facilities for the care of the feeble-minded.

Relating to the commitment of deaf children to the state institution.

Establishing of special classes in the public schools for defective children.

Age at which children may work, hours of work for children.

Issuance of employment certificates.

State superintendent of schools shall supervise work of instruction in certain state institutions.

H. R. Wamsley, a candidate for the legislature from Jackson county, is here as a Republican clerk lobbying for the passage of an alleged pure election bills applying to Kansas City alone. If Wamsley were permitted to have his way judges of election could serve in any precinct of the city regardless of where they reside. The purpose of the proposed legislation is to try and leave the impression with the independent voters of the state that Republicans are defeated by fraud in Jackson county. The argument used by he and his co-workers could easily be transferred to a criticism of the judges of election in Howard, Callaway, Boone, Randolph, Chariton or any of the larger Democratic counties as the Democratic plurality in each is greater in proportion to the vote cast than in Jackson county. Some people move in "mysterious ways, their wagers to perform." Those who know realize that an effort is being made to create a Republican organization in Jackson county by legislative enactment.

the county, is proposed. To collect the bounty the head must be taken to the county court.

A bill to compel all school districts of the state to vote a levy of 65 cents before state aid is available has been introduced by Representatives Maxey and Ely. The measure also provides a scale for teachers' wages as follows: Teachers holding first grade certificates, \$75; second grade, \$65; third grade, \$50. All schools are also required to properly heat buildings, provide sanitary toilets, pure drinking water and ample and sanitary grounds.

Senator Buford proposes that instead of having a constitutional convention for a new constitution that persons interested in the matter present to the legislature such amendments as they desire and have them submitted to the people of the state. This, he says, has been done with success in other states.

All road men are agreed on the McCullough-Morgan road bill which was mentioned in this letter recently and it is almost certain that the measures will be enacted into laws. They provide for approximately \$60,000 for the purpose of improving 50 miles of roads in each county. A conference called by Governor Gardner resulted in this agreement.

Noted Colored Woman.

Sojourner Truth was a colored woman born in New York state, probably about the middle of the eighteenth century, as she was middle aged at the time of Washington's death, in 1799. That was not her real name but she assumed it for reasons of her own. She was a slave all her life until set free by an act of the New York legislature in 1827, abolishing slavery in that state, July 4, 1827. Mrs. Harriet Beecher Stowe wrote a life of her
